Website & Digital Solutions Development Proposal

This document presents a complete overview of our website and digital development services, tailored to help businesses establish a strong online presence. From intuitive web design to powerful AI-driven systems, we provide solutions that enhance performance, streamline operations, and support long-term success.

SCOPE OF WORK

Website Development Services

- Website design and layout
- Pages (5–15 pages)
- Mobile responsiveness
- Contact form integration
- Basic SEO setup
- Performance optimization
- Domain setup guidance
- Hosting setup guidance

AI & Automation Solutions

- AI chatbot (customer support & FAQs)
- AI agent (task automation & workflows)
- Intelligent data processing and insights

- Personalized AI user experience

Backend & System Infrastructure

- Cloud database integration
- User authentication system (login/signup)
- API integration (per integration)
- Scalable system architecture

Mobile & App Development

- Progressive Web Application (PWA)
- Mobile-ready system optimization
- Full mobile application development
- Backend system development

E-Commerce Development

- E-commerce system (full implementation)
- Product listings and categories
- Shopping cart and checkout
- Order management system
- Payment integration
- Customer accounts

- Sales analytics and reporting

- Inventory management

Dashboard & Analytics Systems

- Dashboard system (full implementation)
- Admin dashboard
- User activity tracking
- Reports and analytics visualization
- Role-based access control
- Real-time data updates

Management Systems

- Management system (full implementation)
- User and role management
- Data entry and tracking
- Automated workflows
- Report generation
- Notifications and alerts

Real Estate Systems

- Real estate & property management system (full implementation)
- Property listings
- Advanced search and filtering
- Property detail pages

- Agent/owner accounts
- Booking and inquiry system
- Property management dashboard
- Map and location integration

SaaS Platform Development

- SaaS platform development (full system)
- Multi-user system
- Subscription and billing system
- Scalable cloud infrastructure
- Data isolation per user/organization
- API-based architecture
- Continuous updates and maintenance

Advanced AI Systems

- AI agent system (full implementation)
- AI assistant (chat-based interaction)
- Automated decision-making workflows
- Task automation system
- Intelligent recommendation system

Integrations & External Services

- API integrations (external systems)

- Payment gateway integration
- SMS and email notification systems

PRICING BREAKDOWN

BASIC WEBSITE PACKAGE

Time Frame: 1 Week

Included Services:

- Website Design & Development
- Mobile Responsiveness
- Contact Form Integration
- Basic SEO Setup

Optional Add-ons:

- Domain Setup
- Hosting Setup
- Maintenance (Monthly)

INTERMEDIATE WEBSITE + SYSTEM

Time Frame: 2–3 Weeks

Included Services:

- Website Design & Development
- Admin Dashboard
- Cloud Database Integration
- User Authentication System

- AI Chatbot
- API Integration

Setup Services:

- Domain Setup
- Hosting Setup

Optional Add-ons:

- Maintenance (Monthly)

ADVANCED SYSTEM (AI + SaaS PLATFORM)

Time Frame: 4–8 Weeks

Included Services:

- Full Website / Web Application Development
- Dashboard System
- SaaS Platform Development

- AI Agent System
- Cloud Database & API Development
- Payment Integration
- Mobile Application (Basic Version)

Setup Services:

- Domain Setup
- Hosting Setup

Optional Add-ons:

- Maintenance (Monthly)
