This invoice is issued following the client's voluntary decision to withdraw from the agreed project engagement prior to the commencement of any development, implementation, or delivery phase. Although no executable work was initiated, significant professional and administrative efforts were undertaken to prepare for the project in line with accepted commercial and consulting standards.

The project cancellation and termination fee represents compensation for preliminary services rendered, including structured consultations, requirement analysis, feasibility assessment, internal planning sessions, and reservation of operational resources. These activities form a critical part of professional service delivery and justify the applicable termination charge.

Value Added Tax (VAT) has been applied at the statutory rate of 18% in accordance with the prevailing tax laws of the Republic of Rwanda. The VAT amount is itemized for full transparency and statutory compliance.
